

A Dell Technologies OEM WOSB Titanium Partner

CCIntegration: Providing Superior Solutions + Supplier Diversity

Complete integration services for exceptional ready-to-deploy solutions

As a renowned OEM problem solver, CCI thinks outside the box to build and deploy your on-prem, edge or embedded solution. But we don't stop there. CCI also offers expert services in inventory management, global logistics, product lifecycle management, product refurbishment and asset retirement/recycling.

A unique partnership with Tier 1 OEM provider Dell Technologies

We've extended our commitment to excellence by cultivating a strong technology partnership with the premier OEM provider in the business, Dell Technologies. Together, our expertise delivers the widest possible range of innovative solutions for our customers. In addition, we are a Dell Technologies OEM Titanium Partner that is also a woman-owned small business.

Diverse leadership that drives success

CCI is proud to be a certified woman-owned small business. Having worked in nearly every facet of the business since 1992, CEO Anna Hung's expert, informed leadership has taken CCI to its current position as the fastest-growing OEM integration company in the USA and a player in the global market as well. Recent recognitions include:

If your organization has a supplier diversity initiative, you can rely on CCI—the industry's leading Dell Technologies OEM integrator—to support your needs. Contact us today at www.ccintegration.com or download our [capabilities brochure](#).

“At CCI, we do more than put your software in a box. We deliver solutions that meet your customer's needs—quickly, easily and transparently—every time, everywhere.”

– Anna Hung
CEO, CCIntegration
